PROFESSIONAL SUMMARY

Frontend Developer and Project & Operations Coordinator with 15+ years of operations, documentation, workflow, client communication, records, billing, scheduling, onboarding, and process improvement experience. Builds responsive React and TypeScript applications that organize information, support real business workflows, and create practical, user-friendly solutions.

CORE SKILLS

React | TypeScript | JavaScript | HTML5 | CSS3 | REST APIs | Firebase | Git | GitHub | Vercel | Responsive Design | Project Coordination | Workflow Management | Documentation Management | Process Improvement | Client Communication | Administrative Operations | AI Tools

PROJECT & DEVELOPMENT EXPERIENCE

Independent / Freelance Project Work | Frontend & Operations Projects | 2025–Present

- Built and deployed responsive frontend applications focused on dashboards, workflow tools, onboarding, documentation, task tracking, content organization, and practical business operations.
- Developed React and TypeScript projects using reusable components, routing, responsive layouts, API/data handling, and Vercel deployment.
- Created operations-focused applications based on real business needs, including project tracking, onboarding workflows, template management, and content dashboards.
- Used AI tools including ChatGPT, Claude, Gemini, Perplexity, Midjourney, Canva AI, and Veo to support planning, research, content, visual assets, and workflow design.

Selected Projects:

PROFESSIONAL EXPERIENCE

Administrative / Operations Support | Pelican LLC | 2022–2025

- Supported operations across commercial, residential, mobile home park, and billboard property portfolios.
- Coordinated tenant communication, leases, rent collection, billing, deposits, maintenance requests, records, and vendor follow-up.
- Maintained employee files, workers' compensation documentation, leave records, timesheet audits, payroll setup details, and benefit reimbursement records.
- Digitized and organized business records in SharePoint to improve document access, tracking, and internal workflow.

Administrative / Operations Support | FOX Factory | 2019–2022

- Supported office operations, employee communication, recruiting coordination, onboarding, training documentation, benefits communication, and policy updates.
- Assisted with workers' compensation documentation, A/R follow-up, internal records, and cross-functional team support in a fast-paced operations environment.

Administrative / Operations Support | Walmart | 2009–2019

- Supported hiring, onboarding, orientation, scheduling, timekeeping, personnel records, workers' compensation documentation, and employee communication.
 - Coordinated department operations, inventory tracking, ordering, reporting, manager support, and cross-functional workflow needs.
-

EARLIER ADMINISTRATIVE BACKGROUND

Healthcare Administration, Billing & Executive Support

- Supported medical staff credentialing, SOP and OSHA manuals, continuing education coordination, department meetings, Board of Directors meetings, executive support, billing, collections, and insurance-related account follow-up.
